

## Phonemic Awareness

Developed by teachers and reading specialists, **Phonemic Awareness** teaches students at a K-2 grade level 38 different phoneme sounds, how to isolate these sounds in words, phoneme addition, deletion and substitution. The skill requirements of the questions gradually increase as students work through the program's 200 activities. Engaging activities and exciting audio-visual content ensure that this program will capture young minds.

## Targeted Skills

- Rhyming
- Digraph phonemes
- Copycat phonemes
- Vowel phonemes
- Digraph phonemes
- Phoneme counting
- Phoneme manipulation
- Syllables

## Marks Manager

The Marks Manager tracks student progress throughout each program and records the percentage score for every activity completed. This feature provides an overview of how well a student is progressing and allows the teacher to identify strengths and weaknesses.

- Records students' results automatically as they work.
- Prints reports quickly and easily for sharing with parents and staff.
- Provides summary reports by subject or detailed reports by activity.
- Allows teachers to print reports for individual students or an entire class.
- Stores student marks in one central location for all programs.
