

## Super Phonics

Developed by teachers and reading specialists, **Super Phonics** is a complete interactive reading skills program that provides systematic and explicit phonics instruction to students at a K-2 grade level. The program uses a variety of exercises and games to sequentially develop reading skills, as students move from learning the alphabet to complete sentences. The program's 400 activities use time-tested methods, along with hundreds of colorful graphics and exciting sounds, to ensure that **Super Phonics** is an effective and engaging way to develop reading skills.

## Targeted Skills

- Alphabet - upper and lower case.
- Consonants
- Short Vowels
- Long Vowels
- Consonant Blends
- Reading Complete Sentences

## Marks Manager

The Marks Manager tracks student progress throughout each program and records the percentage score for every activity completed. This feature provides an overview of how well a student is progressing and allows the teacher to identify strengths and weaknesses.

- Records students' results automatically as they work.
- Prints reports quickly and easily for sharing with parents and staff.
- Provides summary reports by subject or detailed reports by activity.
- Allows teachers to print reports for individual students or an entire class.
- Stores student marks in one central location for all programs.
